

## ***One***

***You say I'm just one man  
What really can I do  
I understand your feelings  
Cause I feel the same way too  
Yet Noah loved God  
And traveled in his ways  
Because of this one righteous man  
All mankind was saved  
Abraham believed God  
And all he had to say  
And from the seed of Abraham  
A mighty nation God made  
As God spoke to Moses  
Moses posed the question too  
He said Lord I'm so weak  
What is it I could do  
But God empowered Moses  
To part the mighty sea  
He called plagues down on Egypt  
And led the captives free  
David slew Goliath  
When he was but a lad  
As all Saul's army stood afraid  
Jonah took Gods message to the city Nineveh  
And the whole city repented on that day  
Samson slew the Philistines  
Paul penned God's word  
John the Baptist cried repent  
As a whole nation heard  
So we say we're just one  
What really can we do  
But if Jesus lives within  
Lets let his love shine through  
We can offer a smile  
To someone on the street  
Or a word of encouragement***

*To someone we should meet  
There's always someone hungry  
There's always someone cold  
There's always someone we can visit who's getting old  
There's always someone who's not heard  
That God can forgive their sin  
And God can use you or I  
To show how to let Christ in  
If we are to make a difference  
Then this is how its done  
All of us have got to step out  
One by One by One
